- Detailed Reports

EIIMS PROVIDES A SOLUTION TO ENSURE SUCCESS!

H3's web-based Education Management System provides the most complete solution for your University. EIIMS will help your institution connect administrators, staff, students and parents on one single platform. This will allow access to student's progress and historical data for ongoing analysis. EIIMS integrates, interlinks and streamlines the operational tasks in all departments to ensure transparency and accountability. Additionally, the flexible reporting and data mining options provide confidence and peace of mind that your information is available for all your reporting needs.

Design your perfect solution by choosing from our extensive list of integrated modules.

Company Overview

H3 InfoTech Pvt. Ltd., a subsidiary of h3 Technologies, LLC, is a global network of consulting and IT services and, is dedicated to supporting the unique needs of our clients. We help our clients conceptualize, realize and implement new products and/or services in today's dynamic digital environment. h3 Technologies aspire to be a respected corporation, providing best-of-breed solutions, delivered by best-in-class people. We bring over 36 years of technical expertise in Oracle and Java Technologies. Although our core competencies are Oracle and Java, we also support any other major technologies including Microsoft based products, Business Intelligence or Data Warehouse across multiple platforms. Our consultants leverage leading edge technologies and business experience to identify opportunities and drive business process improvements.

EIIMS will track every aspect of student life and integrate that data into information for administrators, teachers, counselors, parents and more.

"EIIMS enables transparency and accountability"

Real Time Student Information Portal

Key Features of our Student Management Module

- A single, centralized database that eliminates redundant data entry and upload/download processes.
- All student information is quickly accessible through the web, including scheduling, grading, fees, and attendance.
- A robust scheduling system.
- Customized Forms, letters and report cards

- Data Mining Reporter to create easy user-defined reports
- Built in standardized reports
- Ability to generate automated email notifications.
- Unlimited creation of user-defined fields to customize for specific needs
- Ability for add-on options to handle all your institutions needs

Benefits of EIIMS

1 Faster data analysis

2 Reduces cost of operations

3 Reduces time on task

4 Accurate and timely

Administration Solutions to meet your needs:

- Key information up front
- Personalized Dashboard
- Tracking and automation of admission process
- Track every member of your learning community with complete historical data
- Manage collecting, reporting and communicating attendance
- Course information is organized for consistent data use
- Simplify your process of communication with staff, students and parents via email and SMS delivery
- Decrease annual data entry. Roll calendars forward
- Streamline the management of discipline issues and automate communication to authorized parties

"Manage, collect, report and Communicate data efficiently"

Opening the line of Communication

Teachers and Parents - Working Together

The link between teachers and parents is very critical. EIIMS will help teachers and parents better communicate about a student's progress. Whether discussing grade information, course rigor, scheduling or email notifications parents and teachers have the ability to proactively work together.

Parent Access:

• View attendance entries, including reasons for absence

• Real-time grades and progress reports

• View course message information posted by teachers

• Identify missed courses and/or assignments

• Parents can submit inquiries to the teacher or institution from the website

• Complete schedule information by semester with teacher information

• View discipline records

• Able to view fees and make payments via credit card

• Monitor student's daily spending and/or purchases

• View Graduation Requirements

• Participate in polls and discussions
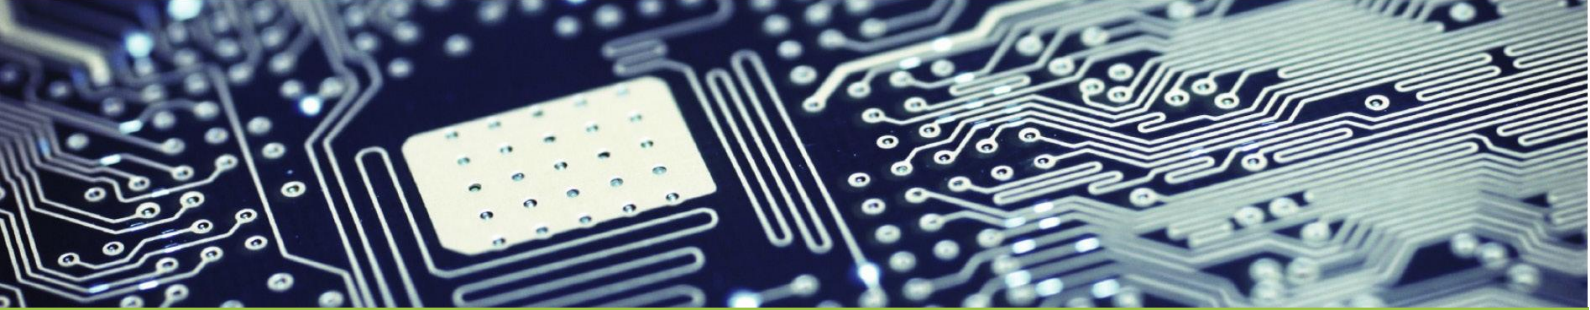

FLEXIBILITY to meet your Institution's needs

Managing your institutions daily operation is much more than grades and schedules. Education facilities need completely integrated options to meet their management needs. H3's EIIMS offers integration, flexibility and control for you to personalize the system around your institution's needs.
